

Centenary 1-12-21. 2021. Assemblage. 68 x 58 x 12 in.

I started building this assemblage in the basement of my home in Chatham, but moved it upstairs after realizing that otherwise it would be too large and heavy to bring up from the basement. Stymied in assembling some components, it sat unfinished in my kitchen for months. I finally completed it the evening of January 12, 2021, which, I realized, was the centenary of my father's birth!

Featured on the cover of *Art & Culture* (Spring/Summer 2023), it was the centerpiece of my solo exhibition at the Cultural Council for Palm Beach County, Lake Worth Beach, Florida.
