

Child's Play. 2014. Assemblage. 19 x 32 in.

Child's Play II. 2014. Assemblage. 16½ x 32 in.

Child's Play was the first of several typesetter tray assemblages. Child's Play II, made later the same year, shows my experimentation with color and a change from flat to satin black paint. Aptly named, it started out as a playtime activity with my young nephew Jacob.
